Subject: CTEH and BP work plans for Community, Staging area, and Perimeter air monitoring

Nancy,

Please find three attached work plans that we previously discussed. In addition to the staging area perimeter work plan that you requested, we have provided a copy of the community air sampling and analysis plan and BP's off shore air monitoring and sampling plan. Please review the staging area perimeter air sampling and analysis plan and provide any feedback to finalize this work plan.

Let me know if you have any questions.

Best regards,
-Christine
